Jackson Safety Introduces the New Extreme Weather EQC – The Arctic

(St. Louis, MO, April 15, 2007) Jackson Safety, a manufacturer of welding and personal protective equipment, is excited to announce that your welding can be pushed to the next level with the new Arctic EQC.

The ARCTIC is designed for application in extreme weather conditions – featuring operating temperatures from -25 to +55 degrees Celsius and -13 to +131 degrees Celsius. It offers a 33% broader operating temperature range than standard auto-darkening lenses. It also features a variable shade of 9-13, sensitivity adjustment, 2 independent sensors, cartridge fits most 99mm x 110mm and 4.5” x 5.25” helmet configurations.

This Jackson exclusive ADF also comes with a two year performance guarantee.
